JOSEPH POLLIO - MARKETING & DEVELOPMENT

George and I worked on many projects together when we were both members of the American Marketing Association at USF. Whether it was raising funds for the organization, setting up community outreach events, or creating digital content for whatever the group needed, he was always committed. If George puts his mind to something, he gets it done, and gets it done right! He would be a great addition to any team out there looking for someone to fill a role.

BRILLY GOMEZ - MARKETING MANAGER

I had the opportunity to work with George on the marketing team at Electric Supply Inc. and he was able to make an impact from the first day. George was able to increase our engagement throughout all of our social media platforms by creating new campaigns, promoting social events and engaging with followers. He was able to revamp our brand while still connecting with our target audience. Through George we were able to gain access to the equipment to develop professional photos and videos which was all created, filmed and edited by George. George is a valuable asset to any team and is a pleasure to work with.

LORAN JARRETT - MARKETING INSTRUCTOR

I came to know George through the American Marketing Association, in which he was first a member and then became part of the executive board as Director of Social Impact. While in his position, he and the team he led worked with a number of local non-profit organizations such as Jackson in Action and Tampa Foundation. His outgoing personality and desire to help others made a difference in the cohesiveness of the executive board and general membership.

While part of the American Marketing Association and a student in my class, he showed dedication and excitement. He is comfortable speaking to a large group of people and his friendly demeanor shines through. George is dedicated to his professional and personal growth. I trust that George has great potential to succeed in his endeavors, thus making him an excellent candidate for whatever he may pursue.
